

## How to make a Pasta Photo Frame

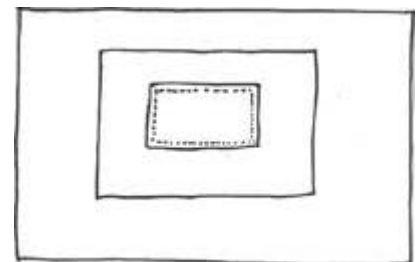

### You will need:

Some strong card  
Pasta shapes  
Gold Spray Paint  
Strong pva glue  
Ruler/ scissors/ pencil

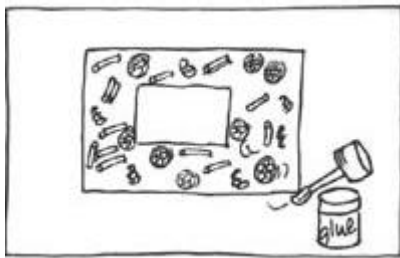

### Here's what to do

1. Draw around the photo that you want to frame. Measure about  $\frac{1}{2}$  cm in and carefully cut out the rectangle. You may need an adult to help you if the card is difficult to cut.

Step 1 - Cut

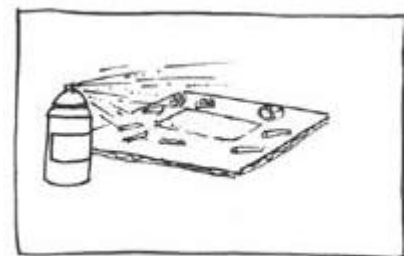

Step 2 - Stick

2. Use plenty of glue to stick the pasta shapes onto the card.

3. When the pasta is completely dry take the frame outside to spray with gold spray paint. Be careful not to inhale the paint fumes.

4. Leave it somewhere safe to dry.

5. If you have a cellophane envelope from an old photo album you can stick it to the back of the frame and slip the photo inside. Don't worry if you haven't you can just stick the photo of your choice on the back of the frame.

Step 3 - Spray

The finished frame

6. Finally make two holes in the top of the frame and thread some coloured ribbon through the holes. Now you can hang your frame up!
